The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/572,550	Applicant(s) NOZAKI ET AL.	
	Examiner JAMES S. HOGAN	Art Unit 3752	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over German Patent No. DE19956830 to Gottlieb et al in view of U.S. Patent No. 4,583,687 to Gaskell.

3. As per claims 1-5, Gottlieb et al discloses (See Figure 9) a fuel injection valve having a nozzle needle (2) inserted into a guide hole (not numbered), where the nozzle needle and the guide hole form a gap (H) that has a tapered shape that widens towards the nozzle holder (1) of the valve, Gottlieb et al does not teach forming an oil pool. As per claim 5, Gaskell teaches a tapered surface (11a) of a guide hole for a nozzle member (17), the result of which would provide form an oil pool that would store high pressure fuel and would discharge a solidified matter in low temperatures and because (a) the Gottlieb et al reference and the Gaskell reference are *known work in one of field of endeavor*, (b) such modification is merely the use of known technique to improve a similar device by Applicant and (c) such modification, i.e. choosing from a finite number of predictable solutions, is not of innovation but of ordinary skill and common sense. *KSR, International Co. v. Teleflex Inc., 550 U.S. (2007).*

Art Unit: 3752

4. As per claims 2 -4 the entire gap of Gottlieb et al has a linear tapered shape that widens towards the nozzle holder (1).

5. As per claim 6, the gap has a tapered shape as a result of a tapered portion (3) formed on the nozzle needle.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
